Dementia

Nutrition

1. Bracci EL, Davis CR, Meyer D, et al. [The cost of a Mediterranean Diet and walking intervention to reduce risk of dementia and improve quality of life in independent living populations in Australia - The MedWalk RCT](#). *Br J Nutr.* 2025;1-30.

2. Dunk MM, Dove A, Wang J, Sakakibara S, Carballo-Casla A, Xu W. [Plant-Based Diet Quality, Healthy Lifestyle, and Dementia Risk in Older Adults With Cardiometabolic Diseases](#). *JACC Adv*. 2025;4(11 Pt 1):102229.
3. Liu Y, Gu X, Li Y, et al. [Author Correction: Interplay of genetic predisposition, plasma metabolome and Mediterranean diet in dementia risk and cognitive function](#). *Nat Med*. 2025: no pagination.
4. Pita Gutierrez F, Breton Lesmes I, Alvarez Hernandez J, et al. [Delphi Consensus of the Nutrition Area of the SEEN \(NutriSEEN\) on the use of enteral tube nutrition in people with advanced dementia](#). *Endocrinol Diabetes Nutr (Engl Ed)*. 2025;501640.
5. Uusimäki K, Ngandu T, Antikainen R, et al. [Long term dietary changes after a multi-domain lifestyle intervention among older adults \(FINGER\)](#). *Eur J Public Health*. 2025;35:2.

Cognitive Function

1. Bohn L, Silva C, Mendes E, Miranda L. [High Physical Fitness Is Associated With Better Cognitive Function in Older Adults With Dementia: A Cross-Sectional Study](#). *J Aging Phys Activity*. 2025;1-7.
2. Gong J, Xu C, Sun W, et al. [Cognitive Function and Proteomic Changes in Patients with Autoantibody-Positive Neurodegenerative Dementia](#). *Neurol. ther.*. 2025
3. Liu Y, Gu X, Li Y, et al. [Author Correction: Interplay of genetic predisposition, plasma metabolome and Mediterranean diet in dementia risk and cognitive function](#). *Nat Med*. 2025: no pagination.
4. Oh C, Park MS, Lee Y, Bong J, Lee HS. [Perceived usefulness of digital memory book among family caregivers of persons with dementia with and without communication deficits](#). *Assistive Technology*. 2025; 37(6): 427-434.
5. Paladino J, Chavez Granados H, Connor Eruchalu JA, et al. [A Qualitative Study to Characterize the Experiences of Patients and Caregivers With Dementia Diagnostic Disclosure Communication and Care Planning](#). *J Geriatr Psychiatry Neurol*. 2025;8919887251388036.
6. Seok JW, Cho AY, Lee JY, Lee H, Lee KH. [Cognitive Function, Physical Activity, and Sweat Cytokines in Older Adults With Dementia](#). *Nurs Res*. 2025;74(6):428-434.

7. Sun R, Li H, Wang M, et al. [The potential of taVNS in attenuating blood-brain barrier damage, promoting angiogenesis and improving impaired cognitive function in a rat model of vascular cognitive impairment and dementia by activating the Wnt7/beta-catenin signaling pathway](#). *Auton Neurosci*. 262:103353

Medicines

1. Cai CY, Greyson S, Fakeye MK, et al. [Practical strategies for improving medication management during care transitions for older adults with dementia: findings from a novel stakeholder-informed review process](#). *Age Ageing*. 2025;54(10): no pagination.
2. Halsey G. [The Expanding Role of Family Medicine in Alzheimer Disease and Other Dementias](#). *Patient Care (Online)*. 2025: no pagination.
3. Niznik JD, Makaroun LK, Sileanu FE, et al. [Exploring Goal-Concordant Medication Use Among VA Community Living Center Residents With Dementia](#). *J Am Geriatr Soc*. 2025: no pagination.
4. Scheel-Bartleit J, Floto C, Hopfner H, et al. [Pharmaceutical Treatment of People with Dementia during the SARS-CoV-2 Pandemic in Germany: Polypharmacy, Anticholinergic Medication, and Antidementia Medication](#). *Dement Geriatr Cogn Dis Extra*. 2025;15(1):119-131.
5. Shida J, Misawa H, Suzuki T, et al. [Potential of ECW/ICW and ECW/TBW as Early and Sensitive Indicators of Chronic Heart Failure Status and Medication Adherence in a Patient With Dementia: A Case Report](#). *Clin Case Rep*. 2025;13(10):e71234.
6. Watson K, Cross AJ, Jokanovic N, et al. [Stakeholder priorities for medication management information resources for people with dementia and carers: An exploratory study](#). *Journal of Alzheimer's Disease*. 2025;107(4):1721-1731.

Activity

1. Bragger E. [Enhancing dementia care through immersive virtual reality: Enabling EDIE workshop...Occupational Therapy New Zealand, Occupational Therapy Clinical Workshops, October 23–24, 2024, Hamilton, New Zealand](#). *New Zealand Journal of Occupational Therapy*. 2025;72(1):18.

2. Chu M, Yue A, Nan H, Ye H, Qu M, Wu L. [Glymphatic activity is linked to the synaptic vesicle cycle pathway in frontotemporal dementia: A metabolomics study](#). *Neurobiol Dis*. 2025;107135.
3. Gitlin LN, Roth DL, Marx K. [Impact of the Tailored Activity Program \(TAP\) on Depressive Symptoms Among White and Black Dementia Caregivers](#). *J Am Geriatr Soc*. 2025;73(10):3208-3214.
4. Hoffman RM. [Invited Clinical Commentary On: "Research Among People Living With Dementia or Mild Cognitive Impairment in Physiotherapy Journals: A Scoping Review."](#) *Journal of Geriatric Physical Therapy*. 2025;48(4):E204-E207.
5. Ibekaku MC, Adebuseye L, Weeks L, et al. [Physical activity-based interventions in the management of dementia or cognitive impairment in sub-Saharan Africa: a scoping review protocol](#). *JBI Evidence Synthesis*. 2025;23(10):2113-2123.
6. Jaffa E, Wu Z, Owen A, et al. [What Is the Association Between Music-Related Leisure Activities and Dementia Risk? A Cohort Study](#). *Int J Geriatr Psychiatry*. 2025;40(10):e70163.
7. Lawlis NH, Cherbuin N, Ambikairajah A, et al. [Objective physical activity in people with young onset dementia, late onset dementia, and without dementia: A UK Biobank study](#). *Journal of Alzheimer's Disease*. 2025;108(1):119-128.
8. Omaña H, Twum-Ampofo W, Hunter SW. [Research Among People Living With Dementia or Mild Cognitive Impairment in Physiotherapy Journals: A Scoping Review](#). *Journal of Geriatric Physical Therapy*. 2025;48(4):E188-E203.
9. Petric B, Kramberger MG, Dolzan V, et al. [The Role of Age and Sex in Paraoxonase 1 Activity in Patients with Alzheimer's Dementia](#). *Chem Biol Interact*. 2025;111787.
10. Seok JW, Cho AY, Lee JY, Lee H, Lee KH. [Cognitive Function, Physical Activity, and Sweat Cytokines in Older Adults With Dementia](#). *Nurs Re* . 2025;74(6):428-434.
11. Warczak K, Klemenska PA, Pierudzka W, Sławatycki J, Wasilewska P. [Dementia Prevention through Lifestyle Modification and Physical Activity:A Literature Review](#). *Long-Term Care Nursing / Pielęgniarstwo w Opiece Długoterminowej*. 2025;10(2):3-14.
12. Zhu Y, Li S, Xiao Z, et al. [Effects of different physical activity interventions on executive function in older adults with dementia: a systematic review and network meta-analysis](#). *Front Neurol*. 2025;16: no pagination.

Early Onset

1. Aspö M, Visser LN, Cronfalk BS, Kivipelto M, Boström A-M. [Quality of life of persons with young-onset dementia: Repeated self-reported assessment over two years from diagnosis](#). *Journal of Alzheimer's Disease*. 2025;107(4):1415-1429.
2. Finkel D, Kårelind F, Zarit SH, Wijk H, Bielsten T, Johansson L. [Latent classes and progression of Mini-Mental State Examination scores in young-onset dementia: Data from the Swedish Dementia Register](#). *Journal of Alzheimer's Disease*. 2025;108(1):262-272.
3. Lawlis NH, Cherbuin N, Ambikairajah A, et al. [Objective physical activity in people with young onset dementia, late onset dementia, and without dementia: A UK Biobank study](#). *Journal of Alzheimer's Disease*. 2025;108(1):119-128.
4. Naftali J, Glik A, Eliahou R, et al. [Impact of cerebral small vessel disease on cognitive outcomes in early age at onset MCI and dementia: Findings from the DIASPORA study](#). *Alzheimer's dement*. 2025;21(10):e70773.
5. Ritzen M, Peetoom K, Bartels SL, Bakker C, de Vugt M. [Needs of people living with young-onset dementia and family carers, explored by dementia subtype, phase in the disease process, and living setting: A scoping review](#). *Journal of Alzheimer's Disease*. 2025;107(4):1340-1363.
