Dementia

Nutrition

1. Fan L, Sun Y, Liu D, et al. [High-fat diet is associated with accelerated gray matter atrophy in cognitively unimpaired older adults but slower atrophy in individuals with existing mild cognitive impairment](#). *Alzheimer's & Dementia*. 2026;22(6):12.

2. McCarthy D, Berg A. [Protein Consumption and Cognitive Health in Aging: Associations with Sarcopenia and Dietary Options, a Narrative Review](#). *Nutrients*. 2026;18(13):2148.
3. Mengjia Z, Minqing Y, Leqi F, et al. [Nut Consumption and Long-Term Risk of All-Cause Dementia: Preliminary Findings from Three Prospective Cohort Studies](#). *Nutrients*. 2026;18(11):1722.
4. Nakamura H, Noguchi-Shinohara Moeko, Makoto M, Kenjiro O. [Oral Dysfunction and Cognitive Decline: A Review of Nutritional and Brain Structural Pathways Linking Tooth Loss, Oral Frailty, and Solitary Eating to Dementia](#). *Nutrients*. 2026;18(13):2208.
5. Yirui C, Hongxin G, Tieniu Z, et al. [Ultra-Processed Foods, MASLD, and Cognitive Aging: A Processing-Centered Gut–Liver–Brain Axis Perspective](#). *Nutrients*. 2026;18(13):2041.

Cognitive Function

1. Chen R, Posis AIB, Pederson AM, et al. [Social network characteristics and cognitive function, decline, and mortality: A joint modeling approach](#). *Alzheimer's & Dementia*. 2026;22(7):12.
2. Demirsoy I, Ozge A. [Regional tau Burden and Multidomain Cognitive Function in Clinically Unimpaired Older Adults: Evidence from the A4 Study](#). *Haseki Tip Bulteni*. 2026;64(3):155-164.
3. Hicken MT, DeAngelis R, Rigby D, et al. [The social environment and cognitive aging over the life course: laying out critical concepts and research gaps](#). *Alzheimer's & Dementia*. 2026;22(7):16.
4. Jieyang H, Tingting M, Yubiao S, Guan L. [Application of Brain–Computer Interface Technology in Vascular Cognitive Impairment: A Systematic Review](#). *Brain Sciences*. 2026;16(6):589.
5. Kunrong Z, Yi-Chen C, Chun-Hsien S. [Exercise Training for Cerebrovascular and Cognitive Health in Adults at Risk of Cognitive Decline: A Scoping Review of Healthcare Translation and Evidence Gaps](#). *Healthcare*. 2026;14(12):1774.

6. Lee H, Youngeun L, Lee S. [Comparing Digital Cognitive Interventions to Active Controls and Usual Care for Mild Cognitive Impairment and Dementia: A Systematic Review and Meta-Analysis](#). *Medicina*. 2026;62(6):1162.
7. McCarthy D, Berg A. [Protein Consumption and Cognitive Health in Aging: Associations with Sarcopenia and Dietary Options, a Narrative Review](#). *Nutrients*. 2026;18(13):2148.
8. Oualid S, Perrone L, Patrick P. [The Role of Polyphenols on Cognitive Function and Dementia Through Gut–Microbiota–Brain Axis Modulation: A Narrative Review](#). *Nutrients*. 2026;18(11):1697.
9. Sharashkina NV, Tkacheva ON, Mkhitarian EA, Dudchenko NG, Runikhina NK. [Impact of a virtual reality program on the cognitive and psycho-emotional state of seniors with mild cognitive impairment](#). *Frontiers in Medicine*. 2026;13:1872824.
10. Siengsukon CF, Hand LK, Nelson E, et al. [The impact of cognitive behavioral therapy for insomnia on cognitive performance and amyloid beta in older adults: A randomized controlled trial](#). *Alzheimer's & Dementia*. 2026;22(6):15.
11. Won-Shuai W, Seung-Taek L, Ji-Hoon C. [Effects of Square Step Exercise on Muscle Function and Cognitive Function in Pre-Frail Older Women](#). *Applied Sciences*. 2026;16(13):6670.
12. Yuehong Q, Can J. [The Association Between Changes in White Matter Microstructure and Cognitive Function in Older Adults with Mild Cognitive Impairment](#). *Brain Sciences*. 2026;16(6):655.
13. Zhou X, Chen L, Huang Z, Zhang Z, Li M, Yang Z. [Aerobic exercise interventions for older adults with cognitive frailty: a systematic review](#). *Frontiers in Aging Neuroscience*. 2026;17.

Medicines

1. Carricondo IG, Carricondo Ana Rocío García, Rey Raúl RD, Alarcón-Rodríguez R. [Evaluation of the “Los Filabres” Protocol on Behavioral and Psychological Symptoms of Dementia and Psychotropic Drug Use in Nursing Home Residents](#). *Healthcare*. 2026;14(13):1934.

2. Maust DT, Davis RC, Strominger J, et al. [Characterizing treatment initiation with central nervous system–active polypharmacy among adults with dementia.](#) *Alzheimer's & Dementia*. 2026;22(6):12.
3. McKernan RM, Rowe JB, John S, et al. [Breaking barriers: Enhancing access to dementia clinical trials in the United Kingdom—Insights from the Scientific Advisory Board of the Dame Barbara Windsor Dementia Goals Programme.](#) *Alzheimer's & Dementia*. 2026;22(7):10.
4. Morris C, Mok PLH, Robinson DL, et al. [Prescribing of anti-dementia medications in primary care: A retrospective cohort study in 1489 English General Practices.](#) *PLoS One*. 2026;21(6):21.
5. Zur N, Stein N, Saliba W, Weinstein G. [SARS-CoV-2 Infection, Vaccination Status, and Dementia Risk: A Nested Case–Control Study.](#) *Influenza and Other Respiratory Viruses*. 2026;20(6):10.

Activity

1. Browne B, Rogers I, Ali K, Tabet N, Ford E. [Identifying the determinants of hospital readmission in dementia patients – A retrospective cohort study using electronic healthcare records in England.](#) *PLoS One*. 2026;21(7):22.
2. Callow DD, Rani N, Smith JC, et al. [APOE ε4 and amyloid status moderate the associations between sleep, physical activity, and tau-PET burden in cognitively unimpaired older adults.](#) *Alzheimer's & Dementia*. 2026;22(6):13.
3. Chong TWH, Partovi A, McCurry J, et al. [Exercise Therapy to Reduce Anxiety \(ExTRA\) in mid-life and later-life adults: pilot feasibility study.](#) *BJPsych Open*. 2026;12(4):11.
4. Danqing X, Akshita D, Makrigiannis LV, Fuller C. [The Neuroprotective Role of Exercise in Alzheimer's Disease: An Integrative Review of Animal and Human Studies.](#) *Neurology International*. 2026;18(6):113.
5. de Meirelles Alexandre Gonçalves, da Silva YT, Cunha Julio Cesar de, Oliveira Muniz, et al. [Effects of Systemic Vibratory Therapy Combined with a Physical Activity Program in Older Adults on Fall Risk, Balance, Physical Conditioning, and Neuromuscular Variables: Study Protocol for a Randomized Controlled Trial.](#) *Healthcare*. 2026;14(12):1723.

6. Espinoza Jeraldo RI, Sedigheh Z, Miranda-Castillo C, Marshall CR, Cooper C. [Lifestyle interventions for dementia prevention in low- and middle-income countries: a systematic review](#). *BMJ Global Health*. 2026;11(6):17.
7. Jarvis I, Besser L, Finlay J, et al. [Urban greenspace and dementia: Measures, mechanisms, and methodological guidance](#). *Alzheimer's & Dementia*. 2026;22(6):28.
8. Kunrong Z, Yi-Chen C, Chun-Hsien S. [Exercise Training for Cerebrovascular and Cognitive Health in Adults at Risk of Cognitive Decline: A Scoping Review of Healthcare Translation and Evidence Gaps](#). *Healthcare*. 2026;14(12):1774.
9. Ludovico B, Giovanna B, Patrizio A, et al. [Attention Deficit/Hyperactivity Disorder and Risk of Dementia: A Systematic Review and Meta-Analysis](#). *Brain Sciences*. 2026;16(6):646.
10. Tamar G, Partridge EL, Adair JC, et al. ["When the Worlds Change and We Get Old": Indigenous Older Adults Reflecting on Dementia and Aging](#). *International Journal of Environmental Research and Public Health*. 2026;23(6):720.
11. Won-Shuai W, Seung-Taek L, Ji-Hoon C. [Effects of Square Step Exercise on Muscle Function and Cognitive Function in Pre-Frail Older Women](#). *Applied Sciences*. 2026;16(13):6670.

Early Onset

1. Corriveau-Lecavalier N, Falgàs N, Putcha D, et al. [Improving the clinical trial landscape for patients with atypical variants of Alzheimer's disease: a call to action](#). *Alzheimer's & Dementia*. 2026;22(6):17.
2. Ludovico B, Giovanna B, Patrizio A, et al. [Attention Deficit/Hyperactivity Disorder and Risk of Dementia: A Systematic Review and Meta-Analysis](#). *Brain Sciences*. 2026;16(6):646.
3. Thanou E, Ganz A, Pita-Illobre D, et al. [Proteomics of post mortem brains in early- and late-onset Alzheimer's disease: Unraveling differential A \$\beta\$ effects and potential AD biomarkers](#). *Alzheimer's & Dementia*. 2026;22(7):14.
acti
4. Tomaselli A, Antonina L, Lentini M, et al. [A Global Burden Perspective on Obstructive Sleep Apnea, Hearing Loss, and Early-Onset Cognitive Decline](#). *Neurology International*. 2026;18(6):117.
