

Current Awareness Bulletin: Oral and Maxillofacial Surgery

Issue 01 January 2025

This current awareness bulletin includes recently published literature related to the discipline of Oral and Maxillofacial Surgery (OFMS).

It is produced on a quarterly basis by the NHS Forth Valley Library Service. If you would like to contact us with feedback, comments, or questions then please email fv.forthvalleylibraryservices@nhs.scot.

You can use the links within each reference to view the article on our [national catalogue, Library Search](#). From there, you can review the abstract, access the full-text where available, or place requests for articles that are outside of our current subscriptions. You can also visit the national digital library for NHS Scotland, [The Knowledge Network](#), to access a wealth of other [library subscription resources](#). If you require any support, please [get in touch with your local NHSS library service](#).

Finally, don't forget to check out the [full range of current awareness bulletins](#) available via The Knowledge Network!

Additional Resources and Support

Evidence Summaries

[Evidence summaries](#) are point of care decision support tools that make it quick and easy to get evidence into practice. They summarise high-quality evidence on different conditions, including practical advice around diagnosis and treatment options, into concise reference entries to help you find answers to clinical questions.

There are several evidence summary tools available via The Knowledge Network as part of our national library subscriptions, including [BMJ Best Practice](#) and [DynaMed](#), which you may want to search for up-to-date information on conditions of interest.

Medicines Information

There are also several Medicines Information resources available via The Knowledge Network, including the BNF.

You may be interested in [accessing these resources](#) for up-to-date evidence and advice around the safe, efficient and effective use of medicines.

Literature Searching and Training

If you would like to request a literature search around a particular research topic or clinical question, or if you'd like to arrange training/support with using The Knowledge Network, subscription resources, or with literature searching, then please [contact your local library service](#) who will be happy to advise further.

NHS Forth Valley staff and partners can find more information about requesting services from the library on StaffNet, or get in touch with us by emailing fv.forthvalleylibraryservices@nhs.scot.

Disclaimer

Thank you for reading this current awareness bulletin. Please be aware that it is not intended to be an exhaustive list of all recently published literature related to OMFS but rather a selection of articles based on our search strategy. It may not represent the whole body of evidence.

Additionally, please be mindful of the fact that these results have not been through a critical appraisal process and may therefore be variable in quality.

No responsibility can be accepted by the NHS Forth Valley Library Service for any action taken on the basis of this information.
